HIGH TECH FOR LIGHTNING PROTECTION

TO WHOM IT MAY CONCERN

INSTRUCTIONS ABOUT LIMITATIONS FOR MOUNTING THE SATELIT+ G2

1/ Buildings heights : no limit

The standard NFC 17.102 does not give any protection radius if the lightning conductor is installed above 60 meters. It supposes in these conditions, the radius remains constant. A special study has then to be made.

2/ Pollution limitations : chlore, greasy dust, corrosive atmospheres.

ONOME KOME MOŽE POSLUŽITI

**UPUTSTVA U VEZI OGRANIČENJA ZA MONTIRANJE
SATELIT+ G2**

1. Visina ugradnje: bez ograničenja

Standard NFC 17.102 ne daje nikakav zaštitni radijus ako je gromobran instaliran na visini iznad 60 metara. Uzima se da u ovim uslovima, radijus ostaje konstantan. U takvim slučajevima neophodno je izvršiti specijalnu analizu.

2. Ograničenja u pogledu zagađivanja: hlor, masna prašina, korozivna atmosfera.

Chennevieres, 27. August 2008.
